EUROPE.

LONDON, Sept. 6.—The *Standard* says it would be rash to draw any conclusion from Sir Stafford Northcote's guarded references to free trade. He must know no greater calamity could happen conservatives, than to take office with such a programme, as foreshadowed in the speeches of Lowther and Sir George Elliott. If conservatives are not prepared to advocate the return to protection, neither election can be considered an unqualified conservative victory though the government cannot afford to disregard the significance of its double defeat.

Bishop Nulby of Meath, in a letter to Parnell, points out that the government only passed the land bill when it could not with any regard to its own safety and dignity withhold it a moment longer. The true spirit of the government is shown in its persistent prosecution of men who made the passing of the land bill necessary. The rejection of the whig candidate in Tyrone county, will teach Gladstone a lesson that he cannot with impunity trifle with the expressed wish of the people.

LIMERICK, Sept. 6.—There have been further riots during this morning. Soldiers who marched upon George street were stoned. They then charged the mob, dispersing it in all directions. During the riots yesterday there was no resident magistrate with the police, and the riot act was not read. The opinion is freely expressed that the police might have kept back the mob without firing.

DUBLIN, Sept. 6.—No political importance whatever is attached to the deplorable occurrence at Limerick last night. The attack on the police was made by a gang of roughs who have been waiting some time for a favorable opportunity to revenge themselves on the force. Unfortunately the men who were wounded the most severely, as for instance O'Keefe, a railway porter, who is not expected to recover, were not concerned in the attack. The police are condemned for their hasty action in firing on the people.

Accounts received to-night say that the number of wounded has been very much exaggerated, only some twelve people being injured with buckshot and one with a bayonet. Three are seriously wounded and one constable was seriously injured. The shooting was precipitated by some hot-headed young policemen, who fired in disobedience to orders of the head constable in command. The town is still in an excited state. A later telegram from Limerick says it is apprehended that a renewal of the riot will take place to-night. The city is in a state of great excitement and feeling against the military is exceedingly bitter. The clergy are doing all they can to restore quiet. Upwards of twenty persons have been seriously injured, some fatally. The bayonet was freely used as well as the pistol.

LONDON, Sept. 6.—The *Globe* says: Jefferson Davis arrived at Liverpool Sunday in the steamer Bernard Hall from New Orleans. He is not in good health. After a short stay at the Adelphi hotel he left for London by the Midland railway express. He declined to be interviewed.

Mormons to the number of 550 sailed to-day for Utah. Switzerland and Germany contribute the greater number. 2000 Mormons have left Liverpool this summer.

BERLIN, Sept. 6.—In the chess contest to-day the game between Tuckerton and Goa resulted in a draw; Mason beat L. Paulsen; Schwarts beat Mason, and Blackburn beat L. Paulsen.

ST. PETERSBURG, Sept. 6.—Count Baronoff has just taken leave of the emperor. The interview was very short and the reverse of cordial. All that the ex-prefect of police got an opportunity of saying was this: "I think it my duty as a patriot and faithful subject of your majesty to warn you that a great movement will be made by nihilists in two or three months." The emperor curtly replied: "Your successor, M. Kasloff, has energy and wit enough to triumph over them," and turned his back on his visitor."

ST. PETERSBURG, Sept. 6.—Two fresh numbers of the nihilist journal *Will of the People*, dated Aug. 3rd and 14th, have appeared in the form of supplements, promising publication of a full number at the beginning of September. The numbers issued contain various warnings to spies of their faith, a list of donations to the revolutionary fund amounting to 5000 roubles; a list of 400 nihilists arrested since November, and articles condemning the czar's policy and threatening the enemy a final blow.

LONDON, Sept. 6.—The *Morning Post* publishes the following: We are assured that Roustan, the French minister at Tunis, arrived at Paris to inform his government that the bey is undoubtedly supporting the rebels, that he has received orders from Constantinople to encourage, and did with all the means in his power incite a general insurrection.

PARIS, Sept. 5.—A passage in Gambetta's speech at Newborough last night in which he declared that Sedan would have been wiped out if France had had more steadfast hearts, and if virtue, patriotism and independence, and disdain for the material enjoyments had more largely prevailed, was loudly cheered.

DUBLIN, Sept. 4.—Archbishop Croke and the bishop of Ross, who are in London, are about to visit Davitt. Bishop Nulty, of Meath, has written to Parnell, stating that although the land bill is incomplete, it ought to have a fair trial. The bishop advises the electors of Tyrone county to reject Dickson, the whig candidate for member of parliament.

A conflict has taken place here between the police and the public, caused by some soldiers making insulting remarks about the pope. The police fired upon some persons throwing stones, and fifteen were wounded, some seriously.

Bonfires were lighted over a large portion of the north of Ireland Saturday night as a mark of gratitude to Gladstone for the land act.

Patrick Egan has declined to become a parliamentary candidate for the present.

SOUTH AFRICA.

LONDON, Sept. 5.—The Union Mail S.S. Co. estimates the total loss of life by the foundering of the Teuton at Cape Good Hope as 236.

AFGHANISTAN.

QUETTA, Sept. 5.—On August 31st Ayoob Khan issued a proclamation that he has abandoned his intention of fighting the ameer and was about to fight the English.

EASTERN STATES.

COUNCIL BLUFFS, Sept. 6.—A special dispatch to the *Nonpareil* from Shenandoah, Iowa, gives the following particulars of a terrible accident which occurred near that place this afternoon. Passenger train No. 91, north bound, on the Wabash road this afternoon was ditched five miles west of this place about 3 o'clock. Nineteen persons were more or less injured and one named Thomas C. Leacox, was killed outright. Two or three others will probably die. The train, except the engine, tumbled down an embankment about fifteen feet high. The cause of the accident is not known.

MARQUETTE, Mich., Sept. 6.—The packing house of the Lake Superior powder company exploded at 8 o'clock to-day. Eleven men were blown to atoms small pieces of their bodies being found in all directions. Nothing of the building remained and no one was left to tell the cause of the accident.

NEW YORK, Sept. 6.—The defalcation in the Brooklyn board of education amounts to $200,000.

Mrs. Margaret Kane died at Williamsburg, aged 107.

PATTERSON, Sept. 6. — Benjamin Sheriff, while playing base ball this afternoon, was struck in the stomach by a ball from a bat and died in a few minutes after.

BOSTON, Sept. 6.—A 500 yard race between Powers, Canad, and Tisdale, at Brighton, Mass., was won by Powers, in 59 seconds. This beats the best professional record 1¾ seconds.

CALIFORNIA.

SAN ANTONIO, Sept. 6.—The court-martial for the trial of Lieut. Flipper, the negro graduate of West Point, convenes here Sept. 12 under the presidency of Col. Pennypacker. The amount embezzled by Flipper is placed at $1700.

CANADA.

TORONTO, Sept. 6.—To-day is the hottest September day since 1854. Bush fires are doing immense damage. Twenty-seven barns have been burnt in the neighborhood of Lowell. Trains going south on the Wellington, Grey and Bruce railway are said to be prevented going further than Palmerston, owing to the railway ties being burnt away in several places. In Upper Grove district, twenty-seven families were burnt out. The village of Vigo is reported burned. In Hillside, the Wesleyan parsonage has been destroyed. The fire crossed the road to the north of the village, and the wind is subsiding. It is rumored that the village of Elmsdale is burned.

RE-OPENING AT YALE.—I take pleasure in notifying my friends that I intend commencing business at the earliest possible date, under the able management of MR. D. CAMPBELL. T. SHOTBOLT.
Victoria, B. C., 29th Aug., 1881. *

DENTISTRY.—MR. R. B. Thompson, Dentist. Nitrous Oxide Gas (Laughing Gas) administered for the painless extraction of teeth. Reduced charges for plate work. Office, upstairs in the Old Masonic Building, Government street. Hours, 9 a.m. to 5 p.m. *

SEE Bagnall's $60 Organ. Just the instrument every family ought to have. *

Eastern Canada Mail.

[Per steamer Geo. E. Starr.]

WINNIPEG, Man., Aug. 26.—A land conspiracy case from south-western Manitoba is before the courts. Two young men, Foster and Sutton, were arrested, but it is believed they are only cat's paws, the real culprits being members of the Legislature and Government officials. Startling developments are anticipated if the prisoners turn Queen's evidence. The case was remanded till Monday.

The Marquis of Lorne reached Qu'Appelle on the 16th inst. The transport arrangements are excellent.

PETERBORO', Aug. 24.—The nominations for the West Riding of Peterboro' (local election), to fill the vacancy caused by the death of the late W. H. Scott, took place on the Court-house square at noon to-day, Sheriff Hall returning officer. Dr. Kincaid was nominated and declared duly elected. The member elect, in a neat address defined his position as strictly independent.

BROCKVILLE, Aug. 24.—About two o'clock this afternoon a fire broke out in the stables of Mr. A. C. McLean, adjoining his new residence on John street. The fire soon spread to the house, which in a few minutes was completely enveloped in flames. As soon as the alarm was sounded Mr. McLean who was down town, hearing that the fire was at his house, started in haste for the scene, but on arriving at the St. Lawrence hall, where a hand-engine was placed, immediately began to help the men to pump. He worked vigorously for about five minutes under intense excitement, when he was observed to drop to the ground. He was immediately picked up, and medical aid was summoned, but life was found to be extinct. It is thought he suffered from heart disease, and that the shock hastened his end. The building, a beautiful large three story brick structure with mansard roof, was completely destroyed. Loss about $6,000.

Later.—The fire has since spread, and burnt to the ground a double frame house belonging to a man named O'Donohoe.

ST. JOHN, N. B., Aug. 25.—Hilyard Bros.' sawmill, on the Strait Shore, was totally destroyed by fire this afternoon, caused by the woodwork supporting the boiler giving way. The mill was worth $30,000; insured for $10,000, divided as follows:—Commercial Union, $5,000; Queen, $3000, Liverpool and London and Globe $2,000. A quantity of lumber belonging to Guy, Bevan & Co. was also destroyed. One hundred persons are thrown out of employment.

It is likely the Conservatives of Montreal will tender Sir John Macdonald a public reception on his return from England.

Blank Book Manufactory and Book Bindery.

Paper ruled to any pattern. Tickets, Receipts, etc., numbered and perforated. Charts and maps mounted. The best classes of modern machinery employed. R. T. WILLIAMS, Government street, entrance through Messrs. Hibben & Co's store. *

CANADIAN WINES.—Perhaps no branch of Canadian industry has made more rapid strides in the last fifteen years than that of the cultivation of the vine. Then but a few acres altogether could be found in Canada, but now hundreds of acres are devoted to vine-culture. Above all others the wines of the Vin Villa Vineyards, of Pelee Island, occupy the highest place in public estimation. The location of the Island has doubtless had much to do with this superiority, situated 15 miles south of the most southern point of the Canadian main land and the largest of the far-famed group of grape growing islands in Lake Erie, it enjoys several weeks of mild fall weather more than upon the mainland. By the latter fact the Pelee Island Vineyards are enabled to grow the Catawba to perfection, which is an impossibility upon the Canada main. The Wines of the Vin Villa Vineyards are to-day to be found upon the wine lists of most of the leading hotels in Canada and are obtainable from most of the leading family grocers and wine merchants. Fell & Co. have received per steamer Idaho a shipment of the above celebrated wines. See advertisement.

DEATH IN THE COFFEE POT.—The public are cautioned against purchasing imported California ground coffee. Its cheapness is its only recommendation. The ingredients are of the vilest description, as anyone using it will discover should he examine the grounds. During the perihelia of the planets people should be careful what they eat and drink. Don't allow your grocer to palm off his trash upon you, because it pays him better to sell it than the good article. Ask for FELL & Co.'s Coffee and take no other. *

MUSIC! MUSIC!—After a most successful TUNING TOUR on Puget Sound Digby Palmer, Fort Street, will resume his lessons on the PIANO AND PIANO TUNING. Orders can be left at T. N. HIBBEN & Co., Government street. *

ASHCROFT RACES.—The annual meeting at Ashcroft will take place on the 5th and 6th October next. Many interesting races with liberal purses have been arranged and owners of fast stock should prepare for this, the most important meeting in the province. *

THE Royal beauties of Europe owe much of their personal attractiveness to the influence of Ayer's Hair Vigor, which keeps the hair fresh and bright. *

ENGLISH, French, German and American Grand, Square and Upright Pianos and Organs at Bagnall's, Government street, Victoria. *

DR. C. E. GEIGER, Homœopathic Physician and Surgeon, Johnson street, near corner of Broad. *

NEW YORK, Sept. 6. — Another new iron steamship built for the Oregon Improvement Co. by John Roach at Chester, Pa., arrived at a pier in Brooklyn yesterday. She is named the Walla Walla, and will start in a few days for Portland, Oregon, with a cargo of railroad material for the O. R. & N. Co. The new steamer has seven water tight compartments. She is 336 feet long and 40½ feet across beam, and her displacement capacity 5000 tons. Both her decks are of iron, the upper one being three-quarters of an inch thick and covered with wood. Her deck houses are of iron and the main deck is guarded by high iron bulwarks which run the entire length of vessel. Her engines are compound and of the very best make. Her saloon, which will accommodate thirty first-class passengers, is aft on the upper and lower decks. Entrance to it are on either side of the after deck house. The staterooms and dining saloon are well fitted up. The main deckhouse is covered by a hurricane deck, at the forward end of which is the pilot house. The captain's rooms are just aft of the latter, and above them is the officers' bridge. The galley, officers' quarters, &c., are in the main deckhouse forward of the engines. The forecastle is at the forward end of the ship under the topgallant forecastle. Two large lifeboats hang in davits over the hurricane deck. The Walla Walla is pierced with four large hatches, each of which has a large iron covering and is supplied with a patent steam winch. The model of the new vessel is a graceful one. Her bows are sharp and she has an overhanging stern. She is schooner rigged with a square sail on her foremast. She resembles the Umatilla of the same line, which started for the Pacific coast during the past summer. The Walla Walla will ply regularly between San Francisco and Seattle. She will carry coal from the latter port and will go back in water ballast, for which she has large tanks in her hold.

Haw. barque Chicalayo, from Burrard Inlet, arrived at Sydney on Aug. 24th.

Steamship Victoria, from Nanaimo, arrived at San Francisco on the 6th Sept.

The ship Chipman hauled alongside the H. B. Co.'s wharf in Esquimalt harbor yesterday and to-day she will commence discharging steel rails. A track will be laid from the end of the wharf to where the former pile of rails were stacked, near the famous stake driven years ago as the commencement of the Canadian Pacific railway.

The barque Xenia was towed into this harbor yesterday by the steamer Pilot and laid alongside Janion's wharf.

Steamer Pilot leaves to-day with the barque Magellan in tow for Burrard Inlet. She will then cross over for coal at Departure Bay and returning will bring down the French barque Jean Pierre, lumber laden from Hasting mill.

VERY PAINFUL ACCIDENT.—Last evening about 11 o'clock Dr. James Dickson, the well known surgeon and physician (formerly of Victoria, B. C.,) met with a painful accident on Yamhill and Second streets. The following are the circumstances of this painful affair: Dr. Dickson left his office and started home a few minutes before 11 o'clock. When he came near Yamhill and Second streets he observed several Chinamen standing on the sidewalk engaged in conversation. Just at that moment some person passed the group and without any provocation roughly pushed one of the Celestials off the sidewalk. The Chinaman made use of a very offensive remark to his assailant for the uncalled-for indignity. The aggressor picked up a stone and threw it violently at the Chinaman. The stone missed the Celestial and passing on struck Dr. Dickson on the side of his face, fracturing the jaw bone. After throwing the stone the man fled. Dr. Dickson was taken into Child's drug store and Dr. Ghiselin and another physician called. They examined the injuries and concluded not to attempt to reduce the fracture until to-day. Dr. Dickson was then conveyed to his home. He says he cannot identify the man who struck him. He is described by several persons who saw him throw the stone as a tall man with a white shirt, long beard and very neatly dressed.—*Oregonian, 7th.*

THE CANADIAN PACIFIC.—The line of this road from Winnipeg, Manitoba, to Portage la Prairie is now all under contract. The company has decided to build extensive shops at Hochelaga, near Montreal, and to build all the equipments for the road there. The company has arranged with a syndicate of Montreal and New York bankers to take $10,000,000 of the 5 per cent. land grant bonds at 92½. They will be placed on the market about October.

CHINAMEN LANDED.—Yesterday afternoon nearly 200 Chinamen were landed from the barque Xenia at Janion's wharf, and their *ictus* examined by the custom authorities. They are a clean, respectable looking lot, much more so than those brought by former vessels during the year. Many of them are old Victorians who have been on visits home to the celestial empire.

THE ladies' committee of the P. O. H. thankfully acknowledge gifts to the orphanage of meat, fish, vegetables, fruit, and periodicals received during the month of August, from the following kind friends: Mrs. Donaldson, Messrs. R. T. Williams, Andean, Waitt, "A Friend," also, the directors of the St. Andrew's Sunday school, and Mr. F. Payne.

SIR CHARLES TUPPER will be at the office of the Dominion Government Agent, corner of Fort and Government streets, from 11:30 a.m. to 1:30 p.m. to-day, and will be happy to receive there anyone wishing to see him.

SHERIDAN'S ENGAGEMENT.—Mr. W. F. Sheridan will appear in "Richelieu" on the 15th inst.; on the 16th, in "A New Way to Pay Old Debts;" on the 17th (matinee), "Ingomar;" on the 17th (evening), "Shylock;" and on Monday evening, "Louis XI."

A REPORT is in circulation to the effect that P. D. Moore, who went East to get up a company to work Chehalis sands for the gold supposed to be in them, has been arrested and imprisoned in the city of New York for passing counterfeit money.—*Seattle Intelligencer.*

COLONIAL HOTEL, N. W.—J. P. Davies & Co. will hold the sale of the Colonial Hotel furniture on Monday next. It will be the largest sale of the kind yet held in the province.

Police Court.

[Before Hon. A. F. Pemberton.]

THURSDAY, Sept. 8.

A lady resident of James Bay was charged by Supt. O'Connor with keeping a ferocious dog contrary to notice served upon her by the Council. Mr. T. Davie appeared for the prosecution.

The defendant said she had removed the dog after notice. A distance of six or seven blocks. She was alone in the house and the dog was her only protector. He was chained.

Constable McLeod deposed to serving the defendant with notice to remove the dog.

A lady stated that on the 22nd August the dog jumped over a fence and bit her on the arm.

Defendant—On your oath did I not offer to kill the dog, and on your oath did not you say that you would not have him killed?

Witness—I did not make the complaint.

Defendant—On your oath did you not say you were to be well paid for this day's work.

Witness—No; no one offered to pay me anything.

Defendant—On your oath—then some of you are great liars.

Another lady stated that the dog came flying at her several times, but did not bite her.

Defendant—Ever since I got the notice the dog has been chained up.

A gentleman testified that his wife came home on two occasions and said she had been attacked by defendant's dog; the defendant was then absent from the city; told the owner of the dog on her return the attacks it had made and asked her to have it killed; she said no one dare kill the dog.

Defendant—I did not. I deny that. It's not the truth.

Witness—She said she would muzzle him and keep him chained; I said the dog must be killed.

Defendant—Did my dog ever bite your son or your wife and daughter?

Witness—No; he attacked my wife twice and once broke the comb on her head.

Defendant—You came to my door like a roaring lion seeking whom you might devour. (Laughter.) I treated you like a gentleman.

Witness—And didn't I treat you like a lady?

Defendant said she had been to Yale and the dog was left there to protect her property. After she got the notice she sent him to Laing's yard and when she returned he used to sleep at her bedroom door. The children of the last witness had annoyed her dog on two occasions and when the lady was bitten she had offered to shoot the dog.

Mr. Davie having addressed the Court,

The magistrate said he had no power to order the dog to be destroyed; he could only fine the defendant.

The defendant said she had got the dog from Mr. Edwin Johnson. It was a gentle animal, and she was afraid to sleep at night without him at the door. The dog is now gone.

Judgment was deferred for one week.

A charge laid by Capt. McDonald of the barque Doxford against James Walsh for refusing to cook breakfast on board that vessel on the morning of the 8th inst. was dismissed.

A charge against a Stickeen Indian woman, was dismissed.

A charge against a Stickeen Indian woman, was dwelling of Susan, a Simpsian, on Humboldt street.

Fined $10; in default one month's imprisonment. If paid $1 to go to complainant for damages.

The second mate of the barque Doxford, M. Speat, on remand from the 7th, was fined $10 for an assault on Edward Marquis, a seaman belonging to that vessel, or in default one week's imprisonment.

Edward Marquis, for disobedience to orders on board the barque Doxford, was sentenced to five weeks' imprisonment with hard labor, subject to be delivered to the captain on application.

A. d. and d. was fined the usual five shillings.

County Court.

[Before Sir M. B. Begbie, C. J.]

FRIDAY, Sept. 8.

C. Gowen *v.* Harris.—This case was resumed at 11 a. m.

Wm. Muldoon, deputy sheriff, sworn—Heard Mr. Gowen say to the sheriff that Moody's Hall was the most convenient place that could be obtained; Mr. Gowen gave instructions for the goods to be removed; copied out the advertisements and Mr. Gowen wished them to be inserted in both papers; the keys of St. Charles Hall were given to Mr. Gowen a few days after the sale.

Mr. Jackson, for the defendant, remarked that all the charges that had been made were with the consent and under the instructions of Mr. Gowen.

Mr. A. E. B. Davie contended that many of the items ought not to have been charged by the sheriff. These were enumerated and commented on. The charge of $2.50 per day for 22 days after the goods were in the possession of the plaintiff was also disputed. Rent of hall, $15, was disputed. The learned counsel commented on the fact of the costs being nearly 50 per cent. of the proceeds of the sale.

The Chief Justice considered that the defendant was not entitled to the $2.50 per day for the wages of a man in possession; but that he was entitled to something. The nights were dark. It was contrary to the strictest etiquette of our city fathers to light the streets, and the goods possibly were unsafe. He remarked that in this case it was possible that the goods should have been delivered to plaintiff by the sheriff without costs. Perhaps Mr. Adams was liable for those costs and he might be proceeded against accordingly. It was through his obstinacy that the costs were incurred and it was only right that he should pay for the indulgence of his obstinacy. He thought Mr. Adams should pay the cost of delivering up the goods, that is packing them and the drayage. The sheriff had no right to make a profit out of the charge for possession. Twenty-five dollars instead of $55 he considered a sufficient sum for this. The charge for drawing up the advertisements, $3, was also disallowed.

Judgment was therefore given for $33; the action being brought for the recovery of $133. Costs to follow the result.

W. J. Jeffree *vs.* Snider—John Payne garnishee. Amount due 858.32.

No order made.

Judgment summons—T. Nicholson *vs.* Wm. Biddle—Amount claimed $17.20.

An order of commitment was made out in this case for 21 days from the 12th inst.

A large number of cases were withdrawn or laid over till future Court days.

OIL! OIL!

LOCAL INDUSTRY LEADS THE MARKET.

SKIDEGATE OIL.

The Skidegate Steam Refined Oil, manufactured from shark livers, has been tested in competition with Lard, Olive, Gallipoli and Rangoon Oils, and in every instance has proved its SUPERIOR QUALITY for LUBRICATING, and settled the fact that it now leads the market. Consumers who have tried it are satisfied that it is the very best in use. Quality and price are two great considerations in the general use of lubricants, in both of which the Skidegate Oil has given satisfaction, the quality being good beyond a doubt and the price so low in comparison with the oils above mentioned that it is bound to control the trade.

Miss Louise Lester's Benefit.

The performance for the benefit of Miss Louise Lester will take place this evening at Theatre Royal. A very fine bill has been arranged, and there is a very general and praiseworthy feeling manifested to give this charming vocalist and actress a bumper house. Miss Lester will be assisted by Miss Shutz, Mr. Louis Nathal and several amateurs.

FIRE WHISTLE.—Last evening the rather unique whistle of Capt. Irving's new steamer the Lizzie Irving, awoke the surrounding echoes for the first time. Steam was raised to try the boilers and machinery, everything connected with which worked smoothly and well.

WE are requested by Mr. A. B. Cooke to state that he filled a prescription for Mr. David Ballantine the night preceding the death of that gentleman and that he supplied no other medicine.

FOR NEW WESTMINSTER.—The steamer Princess Louise left yesterday morning for the Fraser with 217 cooley laborers for the Canada Pacific railroad. They are a healthy, stalwart looking lot of Chinamen.

THE YALE FIRE.—All the losses sustained in the great fire at Yale by the Phenix of Brooklyn Fire Insurance Company, of which Mr. H. F. Heisterman is agent in this city, have been promptly and liberally settled.

KENTUCKY JUBILEE SINGERS.—The box sheet is now open at Redfern's jewelry store for the sale of reserved seats. Go early and secure your seats.

THE COLONIST.—Copies of *The Colonist* of to-day, containing a report of Sir Charles Tupper's great speech may be had at the publication office.

THE agricultural association will meet in the town hall this evening for the transaction of important business.

FROM THE SOUND.—The steamer Geo. E. Starr arrived yesterday at 12:45 p. m. from Tacoma and way ports.

[illegible] sent an address to Sir Charles Tupper today.

THE sailing of the steamer Grappler has been postponed till Saturday at 6 p.m.

MISS LESTER'S benefit this evening should not be forgotten.

American Mail.

A Colorado editor who has visited Salt Lake City says:—"Mormonism is growing and the wealth of the church is rapidly increasing. There is money in it and money hires brains. Some of the wealthy Mormon merchants apostatized because of an unwillingness to buy tithings. The women are not inclined to rebel against polygamy."

A Long Island man has "gone up." He had discovered a sulphur spring on his farm. He organized a company at once. A quantity of water was sent to New York for analysis, and the company sat down to quaff fluid sulphur, and await returns. There came in an autograph letter from the chemist in these words:—"If you will move your —— old stable about twenty feet from your well, you will have less sulphur."

Mrs. Hayes is said to have been the best matchmaker ever in the White House. During her four years there she married off all her eligible neices, and helped along all the young girls of her connection. It used to be a remark when a young lady arrived at the White House, "What young man has Mrs. Hayes in view now?" She has lots of namesakes all over the country, and is one of the most popular women in America.

BURNETT'S COCOAINE.

A Lady's Hair Saved by its Use.

BURNETT'S COCOAINE will keep the hair in a strong and healthy condition *by stimulating the roots of the hair and restoring the natural action upon which its growth depends.* Twenty years ago a single bottle saved a lady's hair in a desperate case where everything had failed; and since that early success thousands of cases of Baldness, Dandruff, Loss of Hair and Irritation of the Scalp have yielded to this remedy. *

It is an indisputable fact that Hall's Hair Renewer renews, cleanses, brightens, invigorates and restores faded or gray hair to its youthful color and lustre, cheaply, quickly and surely. People with gray hair prefer to buy it, rather than proclaim to the world through their bleached locks that they are becoming aged, and passing on to decay. *

Go out in the damp air, or sit unprotected in a draught, and your throat will feel sore and your head uncomfortable. You have taken a cold, which you can remove as promptly as you received it by using Ayer's Cherry Pectoral. *

Many Clergymen who were obliged to withdraw from the pulpit on account of "Clergymen's Sore throat," have recovered by using Fellows' Compound Syrup of Hypophosphites and are preaching again. *

CUSTOMS BLANKS.—Duty blanks with the new form of oath attached are now on sale at *The Colonist* stationery store. *

CARD EXPLANATORY.

WHEN SIR CHARLES TUPPER WAS DELIVERING his address in Theatre Royal yesterday he referred to Mr. Blake, the Leader of the Opposition in the Dominion Parliament.

I understood Sir Charles to say that he did not at one time know what to do with Mr. Blake. I said send him out here, we know what to do with him.

Sir Charles must certainly have misunderstood me if he thought for a moment that I wished to interrupt or embarrass him, or that I am an opponent of him or his party, or friend to Blake & Co.

I know full well what Mr. Blake's feelings are towards Britsh Columbia, if I can judge from his public speeches; and if Sir Charles can send him here, I for one would treat him as he deserves from us—as we are endeavoring to treat Sir Charles.

SIR CHARLES TUPPER AT THEATRE ROYAL.

Eloquent Reply to the Civic Address.

At precisely 3 o'clock Sir Charles Tupper, accompanied by his Worship the Mayor, Councillors Boyd, McLean, Shakespeare, Wriglesworth, Kinsman, Vigelius and Smith, Messrs. Wilson, Williams and Drummond, M. P. Ps., Senator Macdonald, Dr. Tolmie, Col. Laurie and others appeared on the stage. The theatre was densely crowded, many ladies being among the audience. In the private boxes were Lady Tupper, Hon. Mr. and Mrs. Trutch, Mrs. Turner, Andrew Robertson, Esq., Hon. Dr. Parker, Col. and Mrs. Clarke, Chief Engineer Schrieber and several other ladies and gentlemen.

His Worship the Mayor said that the object of the meeting was to present an address of congratulation to Sir Charles Tupper. That address, he observed, represented the views of a majority of the people of this province, who regarded the Dominion government as their true friend, and they presented the address in full confidence that Sir Charles' presence would have the effect of removing all the difficulties under which the Province labored. He believed that all difficulties would be swept away by Sir Charles Tupper and that the true benefits of confederation would then be realized. (Cheers.)

W. Leigh, Esq., Town Clerk, then read the following

ADDRESS:

Honorable Sir Charles Tupper, C.B., Knight Commander of the most Distinguished Order of St. Michaels and St. George, &c., &c., &c., Minister of Railways and Canals:

SIR:—1. The Mayor and Councillors of the city of Victoria beg to extend to you as a minister of the Crown and one of Canada's most eminent statesmen a cordial and hearty welcome on your arrival for the first time in this remote Province and to express the hope that your visit will be a source of pleasure to yourself as well as of interest and advantage to the whole Dominion.

2. We know that you have taken deep interest in the great public questions which have been discussed and agitated for so many years, and which are of such vital importance to this Province.

3. We acknowledge with satisfaction the vigorous action taken by the government of which you are an active and honoured member, on its accession to office, after the last general election and the intention evinced of treating this province with some degree of justice.

4. We also have to express our satisfaction with the agreement made by the Dominion Government with a syndicate of capitalists having for its object the construction of the Canadian Pacific Railway from the Atlantic to the Pacific in ten years, believing the advantages expected to flow from such a policy will be fully realized by the whole Dominion.

5. We now come to a question which more immediately affects the inhabitants of Vancouver Island, and although we are fully aware that all negotiating on this subject belongs to the Provincial Government, yet representing as we do the largest municipality and the capital of the Province, whose interests are largely identified with this question, we feel it our duty to call your attention to the long delay in the commencement of the Esquimalt and Nanaimo Railway, the immediate construction of which was agreed on by the Dominion seven years ago, and to express our deep regret that your government did not place this short piece of railway under contract this year; and we would particularly call your attention to the very serious injury that this Island has suffered through the many years of delay in the construction of this important section of the trans-continental railway; we venture to hope that one of the principal objects of your visit to this province is to arrange with the Provincial Government for the speedy commencement of the Esquimalt and Nanaimo Railway.

6. No doubt you are aware that the Dominion Railway belt of valuable land on Vancouver Island and on the Mainland has been withheld from sale or pre-emption for many years, to the manifest injury of the Province, and in consequence many intending settlers have been driven from our shores to find a home in the adjoining United States and Territories.

7. As you are aware, had the original terms of union been carried out, instead of travelling for 3000 miles through a foreign country you would have been able to have visited us by the Canadian Pacific Railway (as the date fixed for its completion has now passed) still the circuitious route taken by you doubtless has its advantage, that it has impressed you with the astonishing effects produced in neighbouring states and territories by the construction of railways and the settlement of the public lands.

8. One of the principal inducements which led British Columbia to enter confederation was the opening of the Province by the Dominion so as to develop the resources, settle the agricultural lands and bring in population, but so far we have had to suffer from neglect in this respect, but we hope that during your stay amongst us arrangements will be made by which the Dominion lands in this province will be thrown open to settlement on liberal terms and that you will take steps to secure for British Columbia a share of the immigration by which Manitoba and the North-West are being built up.

9. We also wish to call your attention to the subject of our harbor improvements and would urge upon you the great advantage it would be to the commerce of the port to have the harbor sytematically dredged; we believe this could be carried out at a comparatively small outlay.

10. Another question having relation to the welfare and morality of the city is that the Provincial Government should be empowered to pass an act, giving this municipality authority to pass a bylaw for preventing the congregation of Indians within the city limits (except under certain restrictions.)

11. We would also invite your attention to the unsatisfactory position in which this city has, from the time of union been placed, in regard to quarantine matters and hope the Dominion government may apply a speedy and satisfactory remedy.

12. We hope that your stay amongst us may be prolonged sufficiently to enable you to obtain by personal examination a thorough knowledge of the great resources of Vancouver Island and the Mainland, which we have no doubt you will find equal to (if not superior) to those of any portion of the Dominion.

13. We also wish to extend a hearty welcome to Lady Tupper, hoping that her ladyship and you may have a most enjoyable visit and a safe return to the capital of the Dominion.

We have the honor to remain, &c., &c.,

At the conclusion of the reading there was a loud manifestation of applause.

Sir Charles Tupper came forward and was received with round after round of cheers. When the manifestations had subsided Sir Charles thanked the audience for their welcome. Lady Tupper and himself and the friends who accompanied them had been everywhere most kindly received. It was impossible to overstate the comfort which had been offered them and the hospitality they had met with on all sides during their stay here, and he would assure his eastern friends that all that was required to receive a kind reception at the hands of British Columbians was to visit them. (Cheers.) In 1858 when in England, he had had his imagination fired by the eloquent speech of the then colonial minister (Sir Edward Bulwer Lytton) and ever since then he had felt an abiding interest in the welfare of this country. (Cheers.) Many of those who heard or read the speech of Her Majesty at the opening of parliament that year, when a transcontinental railway through British territory, flanked by prosperous colonies along its length and breadth, was first advised, must have thought that it expressed rather the glowing imagination of a poet than the sober reality of a statesman. But he (Sir Charles) had lived long enough to find the belief expressed by the eminent statesman actually being realized far in advance even of the idea as expressed at that time. (Cheers.) In 1860, in the city of St. John, Sir Charles continued that he delivered a speech in which he pointed out the necessity of confederating under one government the whole of British North America, and ventured to express the hope that he might live to see the day when the empire of British North America should be presided over by a Prince of the Blood. (Cheers.) He had not lived to see that day, but he had lived to see a better one—when all British North America was welded into one united and prosperous empire, presided over by a scion of the great house of Argyle, who had had the benefit of experience in the greatest of all legislative assemblies—the British House of Commons (cheers) and who had for a consort a Princess of the Blood. Sir Charles paid a warm tribute to the Princess Louise, and caused a fresh outbreak of applause by the announcement that H. R. H. would shortly return to Canada with her health entirely restored. Adverting to the address just read, Sir Charles continued that he endorsed and approved of the policy of approaching Ministers with a statement of the views and claims of the people. So far from objecting to it he felt that when Ministers were made acquainted with the wants and wishes of the people the great object of a visit was attained. The standpoint from which people looked at matters had a great deal to do with their opinion. The address had done no more than justice to the Canadian Government when it credited them with a desire to advance the best interests of the province. No one was more keenly alive to the importance of British Columbia to the Confederation than Sir John Macdonald—the senior member for this constituency—and it was fortunate that that distinguished gentleman should have the advantage of representing a constituency such as he was now addressing. Every section of the Dominion had been placed under obligations by the broad and handsome manner in which Victoria had tendered Sir John a seat (cheers). It would have given Sir John Macdonald great pleasure to stand where he did to day; but the state of his health rendered a visit to England imperative. Nothing could exceed the desire of the Premier to see everything done to meet the just claims of this people; but he (Sir Charles) was afraid that some did not rightly estimate the difficulties which the Government had encountered. The history of the world did not present an instance of a work so gigantic as the consolidation of this empire and construction of the trans-continental railway. The difficulty was great, and yet the Government of which he was a member had successfully grappled with all (cheers). It had taken a broad and statesmanlike view of the great questions, and to-day were carrying them on to a successful consummation. (Prolonged cheering.) He believed the magnificent coastline, the fisheries and forests, the mountains that were the seat of untold treasures of gold, silver and coal, and the delightful climate of this province could never be properly developed or understood except under one strong government. To give British Columbia a position which God and Nature intended it should enjoy, it was necessary that the Government of which he was a member should grapple with this great work. He was not going to say that the terms accorded British Columbia were too favorable; but from the day those terms were first published down to the present the government of Sir John Macdonald had met with the sternest opposition from the liberal party. No person believed that those terms were cast iron—that they were like a hard and fast bargain which must be kept although the country should be ruined. (Hear, hear.) The government felt they were dealing with men who were part of themselves and who in case they saw a disposition to keep good faith would utter no complaint. (Cheers.) The government of Sir John Macdonald lost no time and spared no means in carrying out the spirit of these terms. It would be impossible for any men to do more than they did in trying to carry out the obligation, and in the attempt the government suffered defeat. They fell in an effort to keep faith with British Columbia. He could not see how there could be a difference of sentiment in British Columbia. The people should be as united as their representatives in the Senate and the House of Commons. (Cheers.) In the absence of the leaders of the opposition he would not enter into any lengthy criticisms of Mr. Mackenzie's five years of power, but he would say that from the date of the committal of Sir John's government to the terms of union the conservative party had had to fight for British Columbia. Sir Charles next referred to the deplorable financial condition in which his government received the country from Mr. Mackenzie's hands. The deficit was appalling, but in the face of that they had not shrunk from the task they had undertaken. Any government would have been justified in refusing to grapple with the railway, but they did not. The interests of Columbia demanded the sacrifice and they had to find means to open up the great Northwest and extend the railway to this province. (Cheers.) Sir Charles next adverted to the difficulties the government had encountered in 1871 when commencing the surveys, being met in the threshhold with stupendous obstacles. When they came back to power in 1878 they sought all possible information respecting the best route, examined the Peace River country and Pine Pass and finally adopted the present route as the best that could be found. They then came down to parliament with contracts for the commencement of the work and have already obligated themselves to expend $8,000,000 on the Yale-Savona sections, so as to bring the large agricultural sections of the country within easy communication with the waters of the Pacific. (Cheers.) They had encountered all the opposition the liberal party could summon to their aid. He believed that every just man within sound of his voice would say that it was impossible for a government to do more than they had done. (Prolonged cheers.) At this moment Mr. Blake—the able leader of the opposition—was in his (Sir Charles') own province, going from township to township, passing from one constituency to another—laboring to convince the people that the conservative government has ruined Canada. (Cheers and hisses and a voice "send him out here and we'll know what to do with him.") Sir Charles said that he was glad to find there was only one person in the vast audience who believed in the policy of the opposition. He feared he had not read the current literature of the day. (Laughter.) The government were more than carrying out the Carnarvon terms. Those terms asked till 1890 to build the railway to Lake Superior only. This government required till 1891 to build the railway from ocean to ocean—to provide an unbroken line of rail from Halifax to the shores of the Pacific. (Great cheers.) It was impossible to overestimate the importance of this arrangement.

He now came to that portion of the address which referred to the construction of the line from Esquimalt to Nanaimo, (cheers) and in approaching it he wished to correct the statement in the address that he had come to British Columbia with a mission to perform in that respect. He did not wish to appear before this intelligent audience of ladies and gentlemen under false pretenses. (Laughter.) He was here as the head of the department of railways and canals and in respect to a great work which was being performed under that department. It was necessary for him to inform himself respecting the progress of that work and as he felt that he could spare time to take a rapid run through a portion of the country it had been decided that he should come out. He desired to deal with the island railway matter in a spirit of perfect frankness and sincerity. Nothing would be gained by concealing matters. It was better to have a frank interchange of sentiment. He would be doing great injustice to the government of which he was a member if he failed to tell them no object was nearer their hearts than that of the construction of Esquimalt and Nanaimo railway. Nothing would give the government greater pleasure than to complete this line. But the people should remember that it was the last straw that broke the camel's back. The supporters of the government had loyally aided them in the passage of the transcontinental scheme, and the railway had been secured to the tidewaters of the Pacific. The government would do all in their power to do justice to the Province in realizing its aspirations, and Sir John had addressed a letter to the head of the Canadian Pacific syndicate stating how anxious the government was to have them undertake the line. Nothing was left unsaid that was calculated to inspire the syndicate with a desire to build the road, and the syndicate had asked Mr. Andrew Robertson, one of the leading merchants and ablest men in Montreal, to come to British Columbia, institute enquiries and report his impressions. Upon his return to Canada Sir John will meet the syndicate and an effort will be made to find a solution for a difficulty that lay so near to their hearts, and that of Sir John and his government. (Cheers). They now had the whole story before them.

Sir Charles next proceeded to draw a glowing picture of Victoria and Esquimalt as the golden gate of the Canadian Pacific. The construction of the Canadian Pacific railway would, he said, change the whole nature of the country and its business, and would develop its great resources. It was the energy of capitalists that had built up this town, and what would they not do when taking advantage of the change that would be sure to follow in the wake of the railway. (Cheers.) The traffic of the east would be large no doubt, but there was a greater traffic which would spring from an interchange of commodities and resources and which would make Canada truly the Greater Britain of the world. (Prolonged cheers.) The traffic and development of what in the east was called the Northwest, but what was here called the Northeast, would tax the energies and the railway, and markets would be found for all the coal, iron, fish and lumber this coast might produce. (Cheers.) Under the policy which enabled Canadian work to be done by Canadian hands on Canadian soil, he was no dreamer when he saw Victoria in the very near future a busy hive of human industry. (Cheers.) With 250,000,000 acres of the finest agricultural land in the world awaiting cultivation, the wildest flight of the imagination could not depict the prosperity that awaited the Canadians. (Cheers.) In the present as in the past the leader of the government and all of his colleagues would give the subject of the Island railway their most careful consideration and any feasible scheme their sanguine support. (Cheers.) With respect to the locking up of the public lands, Sir Charles said that difficulties existed—some discussion had taken place between the local and Dominion governments and as soon as the difficulties were adjusted no time would be lost in opening the country to settlement. Getting money from these lands was a secondary consideration with the Dominion. (Cheers.) He had no doubt that the local government would give every assistance in providing for the early construction of the Esquimalt and Nanaimo railway. He could assure the people that the local government was not more anxious than the Dominion government to effect an arrangement. The matter of dredging the harbor was in the hands of his colleague Sir Hector Langevin, who would doubtless give it every attention. The question of the Indians was a matter for Sir John Macdonald's department, to whom that portion of the address would be referred. Sir Charles complimented the thrift and general appearance of the Indians he had seen in the province, saying he thought them well advanced towards civilization.

In conclusion, Sir Charles apologized for his somewhat lengthy address, but said it was not often that he had had the advantage of addressing an assemblage of so many gentlemen who were interested in building up an empire. He believed in the Old Flag (cheers) which was ever in the van of human progress and liberty, and said that under the influence of glorious British institutions, which were the admiration of the world, with a climate that produced hardy men and women, and every resource that contributed to the happiness and prosperity of mankind, Canadians would become a great and powerful nation.

Sir Charles retired amid long-continued applause.

The Mayor called for three cheers for Sir John Macdonald and the Dominion government, feeling sure that they will carry out the agreement and secure the Esquimalt and Nanaimo railway.

Three cheers were given with a will and were followed by three hearty cheers for Sir Charles Tupper, and three equally hearty cheers for Lady Tupper.

Sir Charles proposed three cheers for the Mayor and City Council which were given.

Sir Charles thanked the vast audience for the attention they had paid to his remarks, and more particularly for the kind manner in which they had received the names of Sir John Macdonald and Lady Tupper. He could assure them that it would not be either Lady Tupper's or his fault if they did not soon meet again.

The vast audience filed into the street after having given three more cheers for Sir Charles Tupper.

Board of Trade Banquet.

In the evening at 7 o'clock Sir Charles Tupper and friends were entertained by the Board of Trade at dinner at the Colonial Hotel. About 100 guests sat down and a most agreeable evening was passed.

The chair was filled by R. P. Rithet, Esq., president of the Board of Trade, and vice chairs by his Worship the Mayor and M. W. T. Drake, Esq., on whose right were seated Sir Charles Tupper, the guest of the evening, Senator Macdonald and Andrew Robertson, Esq., of Montreal, on the left, his honor the Lieut.-Governor and hon. Dr. Parker, of Nova Scotia, hon. Mr. Walkem, and C. Schrieber, Esq., chief engineer of the Canadian Pacific railway. Amongst the other guests were hon. Dr. Helmcken, hon. Mr. Beaven, Col. Clarke, Col. Laurie, R. Dunsmuir, W. C. Ward, J. C. Raymur, Ld. Lowenberg, W. Wilson, M.P.P., Speaker Williams, M.P.P., A. E. B. Davie, Carl Strouss, E. B. Marvin, J. W. Douglas, D. W. Higgins, W. J. Jeffree, Coun. McLean, Robt. Williams, C. E. Pooley, D. Harris, W. Fisher, J. Heywood, Thos. Shotbolt, Theo. Davie, J. Craig, F. C. Marshall, A. B. Gray, H. F. Heisterman, Thos. Earle, A. A. Green, C. S. Jones, Robert Ward, M. T. Johnston, E. G. Prior, D. M. Eberts, F. S. Barnard, H. Bullen, M. W. Waitt, A. Munro, P. McQuade, J. D. Pemberton, R. E. Jackson.

The President read a letter of apology from Capt. Stephen, R. N., who was prevented from attending by a prior engagement.

The president proposed the health of "The Queen," "The Prince of Wales and the Royal Family." These toasts were drank with great enthusiasm with the usual honors.

The president proposed the toast of the "Governor-General," which was drank with enthusiasm.

"Navy, Army and Volunteer Forces," proposed by Vice President Drake, responded to by Mr. E. C. Baker, Col. Laurie and the Mayor. "Lieut. Governor" by Vice President Turner, responded to by the Lieut. Governor. "The guest of the evening," proposed by President Rithet, responded to by Sir Charles Tupper. "Dominion Government, Senate and Commons," proposed by Mr. J. H. Todd, responded to by Sir Charles Tupper and Senator Macdonald. "Local Government and Legislative Assembly," proposed by Mr. J. D. Pemberton, responded to by Hon. Mr. Walkem, Hon. Mr. Beaven and Mr. Speaker Williams. "Our other Guests," by Secretary E. C. Baker, responded to by Hon. Dr. Parker, Mr Andrew Robertson and Col. Clarke. "The Press," by Mr. Robt. Ward; responded to by Mr. D. W. Higgins. "The Ladies," by Mr. Ld. Lowenberg; responded to by Mr. D. M. Eberts.

The banquet came to an end about one o'clock this morning. A more lengthy report of the proceedings will appear to-morrow.

During the evening the following address was presented to Sir Charles Tupper:—

TO THE HONORABLE SIR CHARLES TUPPER, C.B., K.C.M.G., MINISTER OF RAILWAYS AND CANALS FOR THE DOMINION OF CANADA.

Sir:—

The British Columbia Board of Trade beg to express to yourself and Lady Tupper the gratification they feel at your presence in this province, and trust that your tour through the interior has been a pleasant one; and that the knowledge gained may be of value to you and the government you so ably represent, in arriving at a proper understanding of any and all questions which may arise in future affecting the material welfare and progress of this section of the Dominion.

As the *only* Board of Trade at present constituted in this province, we have the honor to lay before you the following matters relative to the interests of trade and commerce of British Columbia coming within the control of the Federal department of the Dominion.

The first matter of importance in which the whole of this province is deeply interested is the subject of the Island railway. A subject which has been pressed upon the Dominion government since 1873. Not only has the non-commencement of this portion of the Canadian Pacific railway been a great detriment to Vancouver Island owing to the uncertainty which it has imported into all mercantile arrangements, but it has also driven from our shores a large number of intending settlers consequent upon the "locking up" of the lands of this Island. Our persistency on this subject can hardly be wondered at in view of the Carnarvon settlement, and the relaxation of the other terms of union which was admitted by that settlement. We feel assured, however, that the present government will do all that they can to remove the disadvantages under which we labor in this respect.

As regards the Graving Dock, we are glad to see that this important work is now proceeding, although slowly; and we hope you may be able to urge a more active prosecution of this essential to our province.

We regret that the government saw fit to remove the Dredger from Victoria harbor where it was doing valuable work, as the harbor is gradually "silting up," and which a very small amount of steady dredging would entirely prevent. This, at the present time, is a subject of much importance on account of the increasing shipping interests of the port of Victoria, and we hope some provision will be made to prosecute this work at an early period. Appreciating as we do, the improvement to the harbor by the removal of Beaver rock, just completed, we trust that the remaining impediments to navigation may shortly be removed, chief among which we may mention Tuzo and Dredger rocks.

The present system of pilotage districts leads to a great deal of dissatisfaction on the part of masters of vessels, owing to the conflict of authorities which at present exist in having *special* pilots for each district. Vessels as a rule call at this port on their way to Burrard Inlet and Nanaimo and the pilots for these ports are put to much unnecessary expense in consequence of their having to maintain an additional number of pilot vessels. We recommend that some arrangement be made by which pilot licenses shall extend over the three districts, reserving to the different boards their local authority. We have already endeavored to arrange such a scheme but without success.

During the visit here of Mr. Gisborne (general superintendent of telegraph and signal service), we urged upon him the advisability of laying a second telegraph cable from some point on Vancouver Island to some opposite point in Washington Territory which met with his approval (or approbation), but we are sorry to find that no steps, up to the present, have been taken in this direction, and as the winter season is approaching during which interruptions most frequently occur, we are anxious (extremely) to see the matter taken in hand without delay. This is especially desirable as it is the intention of the Puget Sound Telegraph Company to extend their telegraph system to Cape Flattery, with which the proposed cable would connect.

Whilst appreciating the "rebate of customs duties" now allowed on tin plates used in the "canning business" and exported foreign we strongly urge that the rebate be increased to an amount equal to the *actual duty* paid on all raw materials used, in order that the important industry of canned fish and of fish oils may be fostered to the utmost. With reference to the Washington treaty which makes provision for the admission of "fish and fish oils" into the United States *free of duty* we would mention that this province is debarred from the benefits of said treaty and beg to press upon the Dominion Government the necessity of providing for the extension of these privileges to the products of this province.

Under the "terms of union" the government of Canada undertook the encouragement and maintainance of quarantine matters, but beyond the appointment of a quarantine officer no provision has been made in regard to them. We recommend that in view of the large immigration induced by railway construction it is of great importance that a quarantine station should be established here without delay. We also take the liberty of referring you to the petition from this board praying for more frequent and regular mail communication between Puget Sound and this Province. We then stated that the additional service asked for (viz. a daily mail) could be secured for a slight increase in the present subsidy, and we have now no reason to change the views then expressed. We therefore solicit your hearty support in this matter. We would further point out the necessity of some general provision being made in relation to bankruptcy—this subject has been frequently urged and is a matter of vital importance to the mercantile interests of this province.

We have alluded to a great number of subjects of more or less importance in this address and feel assured that they will be referred to the proper quarter and will receive every consideration, and we trust that we may look forward in future to the annual presence of some member of the Dominion Cabinet in this Province, as the more its vast resources are examined and its advantages noted the more chance there will be of an influx of population to develop the hidden wealth of our seas, lands and rivers. We regret that your stay has been so brief but look forward to a time when you can make a more lengthened sojourn among us, and in conclusion we trust that both you and Lady Tupper will look back to this expedition as one of the pleasant memories of your lives.

For the "B. C. Board of Trade,"
(Signed) R. P. RITHET,
President.

TRIAL TRIP.—The steamer Pilot after undergoing extensive improvements and a thorough renovation went out yesterday morning on a short trial trip before bringing in the American barque Xenia. She has been equipped with a new towing propeller, from Philadelphia, of the most approved pattern, which although not increasing her actual speed when running light yet it has given her at least two knots per hour additional towing power with heavy ships. The account she gave of herself in steaming round the ships in Esquimalt harbor and then out to Pedder Bay was eminently satisfactory to all connected with the vessel. Everything worked to a charm, reflecting much credit on Mr. R. Watson, junior, under whose supervision she has been overhauled and repaired.

THE DOUGLAS MEMORIAL.—A site for this obelisk has been selected on the Government grounds near Dallas road and immediately in front of the main building. Next to the position which it ought to have occupied at the upper part of the sweep, directly opposite the main entrance, the site is perhaps the best that could be obtained. Work on its erection will be commenced to-day.

NOVA SCOTIANS, ATTENTION.—The Nova Scotians in this city are requested to meet at the Union Hook and Ladder house, Government street, this morning at 10:30 preparatory to the presentation of the address of the Nova Scotians to Sir Chas. Tupper, to which 110 signatures are attached. The address will be presented at Hon. Mr. Trutch's office at 10:50.

The Yale Fire.

We are the sole agents in British Columbia for the J. and J. TAYLOR, Toronto, Safe Works. These safes have alll the modern improvements and are now made to withstand a fire equal to that at St. John or Chicago. The non-conducting flange is the latest of these improvements and has been adopted after the most severe tests of its fire-resisting qualities. Instead of castiron they now use galvanized homogeneous steel which is much stronger and tougher.

This new style of safe having so many practical advantages can be recommended as the best in the market.

MEDICAL

DR. SPINNEY & CO'S DISPENSARY,

No. 11 KEARNEY STREET SAN FRANCISCO.

DR. SPINNEY, well known as the founder the Montreal (C. E.) Medical Institute, and late Proprietor of the SPINNEYVILLE INFIRMARY, would most respectfully inform his patients and the afflicted generally, that he still continues to treat chronic and nervous diseases with unparalleled success.

LADIES AND GENTLEMEN

Remember that procrastination is the thief of

COME AND BE HEALED!

It matters not what you troubles may be come and let the Doctor examine your case. It will cost you nothing for consultation, so please call and satisfy yourselves whether the Doctor understands your case. If he can cure you he will tell you so; if not, he will tell you that, for he will not undertake a case unless he is confident of effecting a cure.

Parties at a distance wishing treatment, by sending $25 and a minute description of their troubles will receive in return a full course of treatment securely packed so as not to excite curiosity.

DR. SPINNEY will guarantee to forfeit Five Hundred Dollars for every case of any kind or character which he undertakes and fails to cure.

P. S.—For diseases of short standing a full course of medicines, sufficient for a cure, with all instructions, will be sent to any address on receipt of $10.00 Call or Address

GRIMAULT AND CO., PHARMACEUTICAL CHEMISTS, PARIS: 8, RUE VIVIENNE, 8, PARIS.

DISEASES OF THE CHEST CURED.

GRIMAULT & CO.'S SYRUP OF HYPOPHOSPHITE OF LIME.

We invite all who are ailing from DISEASES OF THE CHEST to resort to Grimault & Co.'s SYRUP OF HYPOPHOSPHITE OF LIME as the ONLY ONE YIELDING UNFAILING RESULTS in the treatment of PHTHISIS, PULMONALIS, ASTHMAS, BRONCHITIS and various kinds of COUGHS. GRIMAULT'S SYRUP of Hypophosphite of Lime is of a ROSE COLOUR, is delivered in BEAT OVAL BOTTLES and SOLD IN QUADRANGULAR BOTTLES. Call expressly for said bottle, bearing the SIGNATURE GRIMAULT & Co.

DR. LEAS'

SOLUBLE PHOSPHATE OF IRON.

Clear as spring water and tasteless; has the advantage over all ferruginous preparations of containing Iron and Phosphorus, which are the elements of blood. It cures *chlorosis, pains in the stomach, difficult digestion, dismenorrhœa, anæmia, general debility and poorness of the blood,* and agrees especially with the most delicate stomachs.

WOMEN'S AND CHILDREN'S DISEASES

No more Cod-Liver Oil.

Grimault's Syrup of Iodized Horse-Raddish.

This medicine has been administered with the utmost success in the Hospitals of Paris. It is a perfect substitute for COD LIVER OIL and has been found most beneficial in DISEASES OF THE CHEST, SCROFULA, LYMPHATIC DISORDERS, GREEN SICKNESS, MUSCULAR ATONY and LOSS OF APPETITE. It regenerates the constitution in purifying the blood, it being the most powerful depurative known. It has also been applied with happy results in DISEASES OF THE SKIN. Further, it will be found to be of great benefit to young children subject to HUMORS and OBSTRUCTION OF THE GLANDS.

GRIMAULT & CO.'S MATICO, CAPSULES AND LIQUID.

Where all other medicines have failed these preparations will always effect a cure. They insure a rapid and extraordinary cure of severe, recent and chronic cases of private disease. They are used in the Hospitals of Paris by the most celebrated physicians and are found greatly superior to all hitherto known mineral remedies, Copaiba and Cubebs. The injection is used in recent, and the capsules in the more chronic cases.

DUSART'S SYRUP OF LACTO-PHOSPHATE OF LIME.

TONIC, RECONSTITUENT and DIGESTIVE, of prime order, particularly suitable to FEEBLE SUBJECTS, CONVALESCENTS, OLD PEOPLE and RICKETY CHILDREN, who find in them CALCAREOUS ELEMENTS entering into the CONSTITUTION OF THE BONES. Well adapted to LADIES IN THE FAMILY WAY, and WET NURSES (whose milk it enriches).

ASTHMA! ASTHMA!

GRIMAULT & CO.'S INDIAN CIGARETTES.

ASTHMA, NERVOUS COUGHS, CHRONIC LARYNGITIS, HOARSENESS, LOSS OF VOICE, FACIAL NEURALGIA, and INSOMNIA, are rapidly relieved by using these Cigarettes.

SICK HEADACHE! NEURALGIA!

GRIMAULT & CO.'S GUARANA.

A single powder of this vegetable production is sufficient to cure instantly the MOST VIOLENT SICK HEADACHE. It is the most valuable remedy against DIARRHŒA, DYSENTERY, and all disorders proceeding from derangement of the Stomach or Bowels.

STALHO-CHUCK MINING FLUME COMPANY,

YALE - - BRITISH COLUMBIA.

THIS COMPANY IS ORGANIZED AS A PRIVATE Company by Ernest B. C. Hanington, M. D., Thos. H. White, C. E., and William Teague, Esq., in Five Thousand Shares, with the intention of bringing water for mining purposes by means of a flume from the Stalho-Chuck Falls to the Flat opposite Yale.

This Flat is very extensive, and recent prospects by experienced miners have proved it to be not only extremely rich in

ALLUVIAL GOLD DEPOSITS,

But also to be without doubt a continuation of the

CELEBRATED HILL'S BAR LEAD.

The Flume, which is now nearly constructed, will carry One Hundred and Forty-Four inches of water, which, at the usual rate of charges, will yield a

DAILY INCOME OF AT LEAST TY DOLLARS

After making allowances for waste and cost of management.

This amount would be doubled by supplying the same quantity of water to miners during the night.

Of the Five thousand Shares Four Thousand are taken by the promoters and

ONE THOUSAND ARE OFFERED FOR SALE

AT THE NOMINAL PRICE OF

$2 50 PER SHARE,

FULLY PAID UP AND CLEAR OF ALL LIABILITIES.

There is no doubt among miners that the Gold Deposits will yield from FIVE TO TEN DOLLARS TO THE HAND for years to come, and the Directors of the Flume feel confident that the enterprise is beyond a speculation and that large profits may be counted upon by the Shareholders.

Applications for Shares must be made either to the President or Secretary before the 30th September next, when the books will be closed.

Intending Subscribers desiring information should addres the Secretary.
